## EXPERIENCE

### Fountain Digital

Los Angeles, CA

*Head of Growth/Strategy/Operations/Product*

June 2023 – Present

- The first hire at venture-backed (\$2M pre-seed) startup: defined go-to-market strategy with CEO and grew the company from \$0 to \$60M in deal volume and \$3M in revenue in first year of operations, and to over \$100M in the years following
- Owned the full sales lifecycle of over \$25M dollars of art to clients including UHNW collectors and regulated funds: brainstorming positioning, preparing deal materials (primarily valuation and comparables), and presenting the pitch
- Independently manage a lending portfolio of over \$1,000,000 as part of the firm's cash management strategy, consistently conducting analysis of the market and assets we lend against to optimize risk
- Launched FountainGO (a peer-to-peer trustless swap protocol built for clients uncomfortable with KYC) – conceptualizing the idea and working with our head engineer to design, develop, and deploy, generating over \$5,000,000 in business in its first 12 months
- Worked cross-functionally with lawyers, accountants, and cyber security consultants to build Fountain Vault, a proprietary custody and acquisition solution that allows customers to bypass typical blockchain nuisances to own art. Onboarded various clients, from museums to independent collectors alike
- Built and deployed a tailored Salesforce CRM, organizing 450+ collector, artist, and institutional contacts to support pipeline tracking, outreach, and deal execution
- Other responsibilities include directing brand design with our third-party contractor, managing the cap table in Carta, streamlining internal communications, tracking company KPIs, and travelling across the country to represent the firm and meet with stakeholders

### ReidarDAO (reidar.io)

Toronto, ON

*Co-founder, CEO*

November 2021 – June 2023

- Founded a decentralized autonomous collective in an experiment of novel organization structures
- Researched and analyzed legal frameworks for DAOs, consulted with external counsel on compliance and entity classification, and navigated regulatory considerations in an evolving legal landscape
- Designed a peer-prediction model to allocate participation rewards as a means of overcoming the “coordination problem” in DAOs and worked with in-house engineers to develop the software
- The company peaked at over \$1,000,000 in assets under management and 73 members
- Reviewed over 500 applications to the DAO, interviewing and ultimately accepting Ivy League students, Wall Street executives, and heads of departments at tech companies like Amazon and StubHub as members
- Directed a team of 15 in a multi-pronged content initiative that produced a podcast, newsletter, and social media presence and amassed over 3,000 followers

### Real Vision Crypto

Los Angeles, CA

*Primary Writer-Analyst*

November 2021 – November 2022

- Handpicked by Goldman Sachs' former Global Macro Hedge Fund head to write a pseudonymous research column read by over 350,000 subscribers weekly

## EDUCATION

### University of Southern California, Marshall School of Business

Los Angeles, CA

*Bachelor of Science in Business Administration*

September 2021 – May 2025

Emphasis in Real Estate Finance

GPA: 3.44

Minor in Blockchain

**The Country Day School (High School)** – The Valedictorian of Class of 2020 (4.0 GPA)

Toronto, ON
